***Allowable Subject Matter***

1. Claim 1-28 allowed.
2. The following is an examiner's statement of reasons for allowance: Applicant's independent claims disclose a caching system that evicts entries from a trace cache and, in response, completes a prefetch from system memory. The demotion system of Darcy is the most closely related prior art. Applicant's most recent amendments, however, require that the prefetch occurs from the low level system memory and disclose a connection between the eviction and prefetching. These amendments appropriately address the concerns presented in the advisory action filed 07 January 2009 and, therefore, the claims are allowable over the art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. A correction has been made to the IDS considerations on 19 May 2006, as a date was not provided for reference A8.
